

REHANA PARBIN

Full-Stack Developer

☎ +91 8638401703 ✉ rehanaparbin0210@gmail.com [🌐 LinkedIn](#) [🐙 GitHub](#) [🌐 Portfolio](#)

Education

Bachelor of Technology in Computer Science Engineering

Barak Valley Engineering College

Karimganj, Assam

Skills

Languages: JavaScript (ES6+), TypeScript, Python, C/C++, SQL
Frontend: React.js, React Native, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, Flask, GraphQL, REST APIs, JWT
Databases: PostgreSQL, MongoDB, Supabase, Google Firebase, Atlas
Tools & Platforms: Git, GitHub, Docker, Vercel, AWS, GCP, Figma, Expo

Projects

DO-IT | *React Native, Supabase, JavaScript, PostgreSQL* 2025

- Engineered a full-featured productivity ecosystem with tasks, notes, analytics, and priority matrix, featuring Pomodoro timer with audio, guest mode, and progress tracking
- Built a scalable back-end using Supabase with real-time subscriptions, secure authentication, and cloud storage for media/avatars
- Developed advanced UI/UX features including animated dashboards, gradient themes, custom scaling utilities, and interactive drawer navigation
- Implemented time-tracking analytics, animated visualizations, optimistic UI updates, and offline-ready CRUD workflows optimized for Android devices

KOA | *React Native, Express.js, Supabase, PostgreSQL, JWT* 2024

- Built a cross-platform mobile budgeting application with real-time financial management, transaction tracking, and secure card management
- Designed and developed RESTful back-end APIs using Express.js with Supabase PostgreSQL for secure and scalable data persistence
- Implemented secure authentication using JWT, encrypted storage (Expo Secure Store), and bank-grade data protection practices
- Utilized React Native Reanimated, hooks, and Context API for smooth animations and efficient state management with real-time database sync

EVENTLY | *Next.js, Supabase, TypeScript, Tailwind CSS, Recharts* 2025

- Developed a high-performance event management solution using Next.js 16 (App Router) and React 19, leveraging React Server Components (RSC) to optimize rendering speed and SEO for complex dashboards.
- Engineered interactive financial and performance visualization tools using Recharts, providing real-time insights into revenue trends, event KPIs, and resource allocation.
- Designed a premium, responsive interface with Tailwind CSS 4 and Framer Motion, creating fluid transitions and intuitive navigation that unified disparate operational workflows.
- Built a robust, type-safe codebase with TypeScript, implementing a comprehensive suite of features including task management, team collaboration, and automated reporting systems.

Experience

Full-Stack Developer

06/2024 – Present

Freelance

Remote

- Built full-stack applications using React.js, Node.js, and Express.js for multiple clients
- Designed and deployed secure RESTful APIs with authentication and optimized databases
- Managed full product lifecycle from requirements to deployment and maintenance
- Collaborated with clients to deliver scalable, efficient technical solutions

Research Intern

08/2022 – 11/2022

Centre for Development of Advanced Computing (C-DAC)

Silchar, Assam

- Researched quantum ML optimization algorithms for complex computational problems
- Reviewed 50+ papers and analyzed quantum-enhanced ML techniques
- Presented findings showing up to 40% efficiency improvement in parameter optimization
